Re: Return of Lost Keys 14th March 2006

Just a short note to say how relieved I was to have one of your staff call to say that my lost keys were handed in at Windsor Police Station and that on picking up my keys Officer Smith from Windsor Police was also quiet amazed that the register worked so well considering the state of the keys and tag were in as they were found at a very busy round about.

Goes to prove that it does pay to have them registered as the keys turned up just three days after losing them .

Yours faithfully,

Warren McCaull.
