Dear Bryan,

I write to provide you with some feedback on my dealings with your company.

Since the introduction of the tags throughout our store network we have experienced several occasions whereby lost keys have been recovered as a result of a Commonwealth Key Tag being attached to the keys in question. On all of these occasions the service provided by your team has been efficient, helpful and professional.

It is always a pleasure dealing with your team and I look forward to continuing to utilize your services in the future.

Yours sincerely,
