

To Mr Bryan J Wheeler,

It is with great pleasure to let you know how exceptional and prompt your key register service provides. I always get questioned on how I can walk around with so many keys on one key ring holder. I always tell them every key has its purpose and each key lock is safe guarded. That is the ease of mind and security your organization provides. I have been a registered client b25878 for close to 10 years, in which I cannot think of any one moment where I have been disappointed in my direct dealings and past claims with you.

Thanks very much and look forward to a further 10 years of excellent service.

Regards,

Michael Mitry
